WORLD CUP SLALOM

The Angulo Magnum, a new standard for Performance and Durability. Putting the performance at your feet, the Magnum is fast yet easy, exciting yet controlled, relentless yet forgiving. With incredibly accessible performance the Angulo Magnum will not intimidate but only exhilarate.

The 85 and 95 share the same rocker line, are both designed to be controllable with the ability to have high top end speed. A little more stretched rocker in combination with the widest point a little more forward makes these smaller Magnums predictable and stable at top speed as well as super easy to gybe!

The 115 and 135 are designed to have incredible range. The single concave design allows it to plane up quickly. While the V and rocker in the tail give release, top speed and smoothens the ride at the top end of the range. This tail rocker also makes these boards superior through the gibes.

MAGNUM

85 95 115 135

W-56.5	W-60	W-72	W-84
L- 237	L- 240	L- 238	L- 235

- Ergonomic deck shape for superior grip and comfort.
- Double density footpads to provide perfect grip and dampening.
- Smooth deck ensures best grip for those times you are not in the footstraps.

JACK OF ALL TRADES

The Angulo CVI, the versatile board in windsurfing! From basic wave sailing to flat water blasting the CVI has got you covered. This board will gibe on a dime and can boost serious air. Simply a blast!

The CVI 90 and 100 with the double concave into V bottom shape are agile and controlled. Changing the set-up (fin and foot straps) really changes the characteristics of these boards to suit your style and conditions. Free to ride whatever style and whatever conditions, without the board holding you back.

The CVI 120 cruises in light or medium wind, waves or flat water. This board, just like it's smaller siblings adaptable to all conditions. The triple panel bottom shape allows this board to blast in a straight line, but turn when you put it on the rail. Easy planing, easy gibes, so easy sailing.

The CVI 150 AST will help you advance your skills in windsurfing, with easy excess foot-strap positions and amazingly gentle feedback to your input allowing you to keep learning. From water-starts, gibes, duck-gibes and even some jumps.

CVI

90 100 120 Carbon 150 AST

W- 52	W- 62	W- 70	W- 72
L- 237	L- 242	L- 240	L- 240

- Multiple foot strap positions make the CVI adaptable to all different conditions and styles of sailing.
- Round smooth rails help the board cut through chop and grip in the turn.
- Rocker with some nose lift gives a lot of confidence through the chop (90 and 100 only) Low entry rocker makes these board glide onto the plane (120 and 150 only).
